

## BLR Joins 2018 Manila Science High School Brigada Eskwela

As part of its Green Our Dole Program (GODP), the Bureau of Labor Relations (BLR) participated in the 2018 Brigada Eskwela on 29 May 2018 at the Manila Science High School in Ermita, Manila.

BLR swept, mopped, and waxed the floor of the classrooms and function hall of the school. They also helped in cleaning up the gardens and setting up the classrooms in preparation for the opening of classes on 05 June 2018.

Dubbed as “Brigada Eskwela” or National Schools Maintenance Week, the program is an annual week-long activity of the Department of Education that aims to cleanup classrooms and beautify school premises to provide students with conducive learning environment.

“It’s always fun to do an activity like this as it reinforces the spirit of volunteerism among government employees and promotes good environmental practices towards achieving a clean and green environment,” a BLR employee said.

GODP is a DOLE advocacy that seeks to strengthen the advocacy on green issues and mitigation solutions on climate change for better delivery of programs and services to the public. It also aims to achieve green work outcomes such as clean, safe and carbon free work environment, efficient resource utilization, and effective waste reduction and management.
