

## **BLR Conducts Monitoring of Implementation of OURS and Other BLR Programs**

The Bureau of Labor Relations visited six (6) Regional and Field Offices to monitor the implementation of Online Union Registration System (OURS) and other BLR programs. Six (6) teams went to DOLE-NCR Field Offices on 13-14 December 2018 and Regional Offices 3, 6, 7, 11 and 10 on 17-19 December 2018.

This activity aims to determine the status of implementation of OURS and other BLR programs in the regional and field offices. It also seeks to monitor and validate the actual implementation of the programs as well as determine the issues and concerns with respect to its implementation.

The teams visited schools of Workers' Organization and Development Program (WODP) scholars, establishments where Labor Relations, Human Relations and Productivity training were conducted, labor organizations that have availed of WODP training grants, members of RTIPC/ITC, and Field Offices implementing OURS. They observed the work environment and interviewed the beneficiaries of BLR programs.
