

## BLR Promotes LEEs e-Learning Portal

In its quest for better service delivery and in ensuring that DOLE's clients are aware of their rights and responsibilities, as well as the various programs and services offered by the Department, the Bureau of Labor Relations institutionalize the Labor and Employment Education Services (LEES) e-Learning Portal for its clients.

It is an online platform where its client can learn different modules and courses for free. As of the moment, the portal has two courses, namely: Basic Labor and Employment Education Course and Comprehensive Course on Freedom of Association and Collective Bargaining.

This portal can be accessed through the Moodle Application which clients can easily install on their android phones.

A video was provided by the Bureau in its social media account for easy guide to its clients.

Please like the Bureau's Facebook Account, Bureau of Labor Relations.
